TRANSMITTAL MEMORANDUM

TO: The Honorable Mayor and City Council

FROM: Karl R. Amylon, General Manager

DATE: February 5, 2021

RE: **Ordinance No. 21-1923 – Increasing Water Rates By Five Percent (5.0%); Establishing A Date For A Public Hearing; And Providing For An Effective Date**

In adopting the 2021 Ketchikan Public Utilities Operating and Capital Budget, the City Council approved appropriations for the Water Division based on a five percent increase in water rates. The attached ordinance was approved in first reading at the City Council meeting of February 4, 2021. If adopted in second reading, Ordinance No. 21-1923 provides for increasing water rates by five percent effective April 1, 2021.

The net effect of the rate increase is detailed in the Finance Director's transmittal memorandum and requires little elaboration on the part of my office. Failure to enact the proposed increases will result either in a need to reduce authorized 2021 Water Division expenditures by \$157,000 or to decrease Appropriated Reserves of the KPU Enterprise Fund by an equivalent amount. I concur with Ms. Johansen's recommendation.

Also attached for City Council reference is a copy of my office's January 15, 2021 report regarding utility rate increases that was prepared at the request of Councilmember Flora. The City Council should note that the table reflecting Electric Division budgeted, existing and proposed staffing has been slightly revised to correct inadvertent errors in the original version.

Prior to consideration of Ordinance No. 21-1923 in second reading, a public hearing is required. The City Clerk's Office has scheduled the public hearing for the beginning of the City Council meeting of February 18, 2021. Following the public hearing, the City Council may consider the ordinance.

The Water Division Manager and Finance Director will attend the City Council meeting of February 18, 2021, in order to address any questions and/or concerns that Councilmembers may have.

A motion has been prepared for City Council consideration.

RECOMMENDATION

It is recommended that the City Council adopt the motion approving in second reading Ordinance No. 21-1923 increasing water rates by five percent (5.0%); establishing a date for a public hearing; and providing for an effective date.

Recommended Motion: I move the City Council approve in second reading Ordinance No. 21-1923 increasing water rates by five percent (5.0%); establishing a date for a public hearing; and providing for an effective date.

"UNAPPROVED" February 4, 2021

Mayor Sivertsen reiterated the fact that Southeast Alaska Power Agency (SEAPA) is increasing the rate they charge us. He said as we heard from Representative Ortiz the State is working in a deficit spending, and this is a trend they cannot continue to do. He agrees this is a difficult decision the Council has to make, but we have a responsibility to operate a utility in a manner that in the long term benefits this community. He stated Ketchikan has one of the lowest rates in the State.

Councilmember Bergeron strongly disagreed that SEAPA needs to come to the ratepayers to deal with this. He felt SEAPA'S finances are well within their capabilities to be able to pay for this.

Councilmember Gass agreed this is incredibly unfortunate that our ratepayers have to pay for something out side of Petersburg. He stated that in the future, as our economic situation rebounds we need to be looking ahead where we can do more on our own and be less dependent on SEAPA.

Mayor Sivertsen said we don't generate enough power in KPU to power our needs. He said the reality is Swan Lake provides wholesale power to Ketchikan. He said when SEAPA was formed the four dam pool was created and all three communities signed an agreement to fund and buy power from SEAPA.

In answer to Councilmember Gass, Councilmember Flora said we can develop more hydro projects, but we will pay for them with current year dollars, and you can never build a project to run at the cost we have with SEAPA. He thanked the Manager and his staff for putting together 38 pages of data he had asked for. He encouraged folks to take the time to read this. He cited the data for the last ten years and the average rate increase is 1.23%. He stated we have almost \$14 million in revenue bonds on the electric division, and electric capital projects of almost \$29 million. He said he disagreed with Councilmember Bergeron's comments, as this not unethical as these are data driven decisions that needs to be made. He said everyone will vote on what they think is best, but we have to look at what is best for the community. He informed the average increase to the electric rate consumer is \$3.20 per month.

Motion passed with Gass, Kiffer, Gage, Zenge and Flora voting yea; Bergeron and Bradberry voting nay.

Ordinance No. 21-1923 – Increasing Water Rates by Five Percent (5.0%) – First Reading

Copies of Ordinance No. 21-1923 were available.

Moved by Flora, seconded by Zenge the City Council approve in first reading Ordinance No. 21-1923 increasing water rates by five percent (5.0%); establishing a date for a public hearing; and providing for an effective date.

Councilmember Flora said again let's look at the math from the report staff put together. He cited from the residential side over the last ten years the average increase was 6%. He informed Alaska inflation averaged 1.64%. He said he would like to hear from the Water Division to get a better understanding why this division cannot get to revenue neutral.

Manager Amylon indicated Council should look at the ten year operating profit and loss statement of the three divisions. In that ten-year period the Water Division hasn't turned a profit in one year. He said basically the rates haven't been raised to meet the cost to produce water and the federal mandates that are imposed. He indicated the ADEC low interest loans were taken out to cover the cost of many water mains that were replaced, and we have to pay those loans back. He said the

"UNAPPROVED" February 4, 2021

residential ratepayers have been subsidizing the commercial ratepayers. He indicated we are trying to address that now relative to the meter installation project, and again we have incurred low interest loans for that project. He explained we haven't been able to get the rate structure in sync between residential and commercial to meet the cost it takes to produce water and distribute within City limits.

Councilmember Flora thanked staff for their explanation. He said from this report the five to fifteen year outlook for capital projects on water is \$89 million. He said he just wants to make sure we can keep lights on and water flowing. He informed if both of these rate increases go through based on the budget information provided earlier for the typical consumer the rate increase is \$75 per year or \$6.25 per month.

Manager Amylon stated it is not getting any better, because now we are looking at the multi million project for the replacement of the failing Schoenbar water mains that are decades old. He stated the matching grants programs have all but disappeared.

Mayor Sivertsen said since those programs are no longer available the City has had to pick up the slack, and we have had to pay for these capital projects out of our own pocket. He informed we still have miles of old corroded water mains that need to be replaced. He cited the Schoenbar area, and the City has not secured funding for that project.

Councilmember Kiffer said historically the Water Division has been left out for decades as far as infrastructure repairs and capital projects go. He said those decisions were made by previous councils, but now the systems are failing, and we don't have a choice but to fix them. He indicated there will never be a convenient time to raise rates.

Councilmember Bradberry indicated as stated before she will not support any rate increases at this time. She felt we are asking folks to make hard choices on what bills to pay or buy food. She referenced a report that came out today regarding the economic losses in Ketchikan, and said she would forward to Councilmembers and staff. She didn't have a problem looking at this at a later date if our economy improves, but would not support this ordinance at this time.

Councilmember Gass indicated as a Council we need to make sure the City can provide essential services, and water is one of them. He said he has received lots of negative comments on this, but at some point it comes down to responsibility. He didn't feel these increases were irrational, and would support this motion.

Motion passed with Gage, Kiffer, Gass, Flora and Zenge voting yea; Bergeron and Bradberry voting nay.

Budget Transfer – 2020 Whitman Lake Hydroelectric Project 2020 True-Up Payment to Southeast Alaska Power Agency (SEAPA)

Moved by Gage, seconded by Zenge the City Council authorize the General Manager to transfer from within the Electric Division's 2020 Operating and Capital Budget, \$18,405 from the Electric Division's Purchased Power Account No. 525.05 to the Whitman Lake – SEAPA True-up Account No. 525.10, in order to provide sufficient funds to make the 2020 Whitman true-up payment to the agency.

Councilmember Bergeron asked if staff could explain for the public exactly what the true-up payment is, and what this money is being spent for. He said he supported the Whitman Lake hydro development project. He felt this issue with SEAPA needs to be reviewed to see if our best interest is being served here.

MEMORANDUM
CITY OF KETCHIKAN, ALASKA
Finance Department
Office of the Finance Director

Michelle Johansen, Finance Director
Camille Nelson, Financial Analyst
Phone: (907) 228-5621
Facsimile: (907) 228-5617

TO: Karl R. Amylon, City Manager/KPU General Manager

FROM: Michelle Johansen, Finance Director

DATE: January 11, 2021

**SUBJECT: Ordinance No. 21-1923, Increasing Water Rates by Five Percent (5.0%);
Establishing a Date for a Public Hearing; and Providing for an Effective Date.**

The adopted 2021 KPU Operating and Capital Budget included a proposal to raise water utility rates for all customers by 5.0%, effective April 1, 2021.

Ordinance No. 21-1923 has been prepared to amend Chapter 11.16 of the Ketchikan Municipal Code (KMC) to incorporate the proposed rate increases. If approved by the City Council, the rate increase will:

- Increase water utility revenues by \$157,000 for the nine months ending December 31, 2021 and \$209,000 annually thereafter.
- Increase the monthly residential water utility rate from \$57.93 to \$60.83 per month and the business and miscellaneous service from \$60.39 to \$63.41 per month.
- Reduce the water utility's current annual deficit from \$407,188 to approximately \$250,188 in 2021 and \$198,188 in 2022, assuming no increase in operating costs.

Section 8-1 of the City Charter requires a public hearing on water rate increases. A public hearing will be scheduled for February 18, 2021.

Recommended Motion:

I move that the City Council pass Ordinance No. 21-1923 in first reading, increasing water rates by five percent (5.0%); establishing a date for a public hearing; and providing for an effective date.

THE CITY OF KETCHIKAN, ALASKA

ORDINANCE NO. 21-1923

AN ORDINANCE OF THE COUNCIL OF THE CITY OF KETCHIKAN,
ALASKA; INCREASING WATER RATES BY FIVE PERCENT (5%);
ESTABLISHING A DATE FOR PUBLIC HEARING; AND PROVIDING
AN EFFECTIVE DATE

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF KETCHIKAN,
ALASKA, AS FOLLOWS:

Section 1: Amendment. Subsection (b) of Section 11.16.020 of the Ketchikan Municipal Code, entitled "General domestic water service—Schedule A," is hereby amended to read as follows:

“(b) Rates.

Residence, per unit

~~\$57.93~~60.83

Trailer or mobile home, per unit

~~57.93~~60.83”

Section 2: Amendment. Subsection (b) of Section 11.16.030 of the Ketchikan Municipal Code, entitled "Apartment service—Schedule A-1," is hereby amended to read as follows:

“(b) Rates.

1 to 4 apartments incl. full

~~\$57.93~~60.83

service/apartment/month

5 to 24 apartments incl. full

~~52.79~~55.43

service/apartment/month

25 and over apartments incl. full

~~45.29~~47.55

service/apartment/month”

Section 3: Amendment. Subsections (b) and (d) of Section 11.16.050 of the Ketchikan Municipal Code, entitled "Business and miscellaneous service—Schedule B," is hereby amended to read as follows:

“(b) Rates.

Base rate per month per customer

~~\$60.39~~63.41

-per occupancy greater than 5	4.82 5.06
- per mechanized dishwasher	19.92 20.92

26. Schools, per student	
- elementary (K – 6 grades)	3.11 <u>3.27</u>
- secondary (7 – 12 grades)	3.45 <u>3.62</u>
- college	3.11 <u>3.27</u>
- per full-time employee in excess of 5	3.11 <u>3.27</u>
- gym showers	no additional charge
- per mechanized dishwasher	19.92 <u>20.92</u>
27. Swimming pool	The rate
28. Theater or cinema	60.39 <u>63.41</u>
29. Trailer court, RV park, or similar facility per individual trailer, mobile home, etc.	At the individual Schedule A rate
30. Water Haulers (refer to Note 3)	3.59 <u>3.77</u> per 1,000 gallons
31. Bulk rate metered water sales (other than Water Haulers)	6.28 <u>6.59</u> per 1,000 gallons

NOTE 1: "The Rate" term used in conjunction with the service classes listed above refers to the sum of the base monthly rate and the service line demand charge. There is no additional charge for the class of service.

NOTE 2: Additional for other facilities such as restaurant, delicatessen, kitchen, bar, beverage dispenser, etc. at the applicable charge for each facility shall apply.

NOTE 3: This rate applies to bulk water haulers who take delivery of water at designated, metered Ketchikan Public Utility facilities and deliver it for direct resale to the ultimate consumer. The base monthly rate and service line monthly charge are not added to this rate.

NOTE 4: The dormitories, laundries and restaurant facilities provided by the fish processors to their employees on a seasonal basis shall be prorated on the basis of the number of months that these facilities are in use and the number of employees using them and shall hereafter apply to all such dormitories and restaurant facilities regardless of past practices.

NOTE 5: "Inactive Commercial Account" This class of account is available to all seasonal business owners who submit a written request to close their account at the end of the season and also request that their water service be turned off at the water main. This "Inactive Commercial Account" status may only be requested once per calendar year. The amount that will be charged for disconnection or reconnection of the utility water service is ~~\$42.00~~\$44.00."

“(d) Conditions. All rates are for service only and do not cover any charge which will be made for installing, disconnecting or reconnecting any service furnished under this schedule. The right is reserved by the utilities to refuse service to anyone who is indebted to the utilities. The amount that the utility will charge for the disconnection or reconnection of anyone who is indebted to the utilities is \$~~42.00~~44.00. The utility will not discontinue water service for the purpose of resolving a dispute or enforcing an agreement between landlord and tenant, lender or borrower, or other legal relationship unless one party to the relationship is a government agency.”

Section 4: Amendment. Subsection (b) of Section 11.16.060 of the Ketchikan Municipal Code, entitled "Industrial except for processing—Schedule C," is hereby amended to read as follows:

“(b) Rate.

<u>Size of Tap</u>	<u>Monthly Charge</u>
5/8 & 3/4 inch	\$80.51 <u>84.54</u>
1 inch	120.77 <u>126.81</u>
1 1/4 inch	201.29 <u>211.35</u>
1 1/2 inch	314.46 <u>330.18</u>
2 inch	480.55 <u>504.58</u>
2 1/2 inch	729.91 <u>766.41</u>
3 inch	1,103.19 <u>1,158.35</u>
4 inch	1,803.88 <u>1,894.07</u>
6 inch	3,006.53 <u>3,156.86</u>
8 inch	3,333.59 <u>3,500.27</u>
Over 8 inch	By special contract”

Section 5: Amendment. Subsection (b) of Section 11.16.070 of the Ketchikan Municipal Code, entitled "Canneries and allied industries—Schedule D," is hereby amended to read as follows:

“(b) Fish processors and allied industries.

(1) A minimum annual charge of \$~~56.98~~59,833.81 for all service sizes 3 inches or greater.

(2) An additional charge for additional services sized as follows:

<u>Size of Service</u>	<u>Charge per Season</u>
5/8 – 1 inch	\$1,981.18 <u>2,080.24</u>
1 1/4 inch	3,557.57 <u>3,735.45</u>
1 1/2 inch	4,750.52 <u>4,988.05</u>
2 inch	14,208.89 <u>14,919.33</u>

..

Section 6: Amendment. Subsection (b) of Section 11.16.080 of the Ketchikan

Municipal Code, entitled "Fire hydrants (privately owned)—Schedule F," is hereby amended to read as follows:

“(b) Rates.

Each 1 or 2 port fire hydrant (each outlet not more than 2½ inches).	\$100.64 <u>105.67</u>
Each 3 port fire hydrant having two 2½-inch outlets and one outlet not more than 4 inches	201.29 <u>211.35</u>
Each 3 port fire hydrant having two 2½-inch outlets and one outlet not more than 6 inches”	239.02 <u>250.97</u>

Section 7: Amendment. Subsection (b) of Section 11.16.090 of the Ketchikan Municipal Code, entitled "Fire hydrants—Schedule F-1," is hereby amended to read as follows:

“(b) Rates.

Each 1 or 2 port fire hydrant (each outlet not more than 2½ inches)	\$27.68 <u>29.06</u>
Each 3 port fire hydrant having two 2½ inch outlets and 1 outlet not more than 4 inches”	37.75 <u>39.64</u>

Section 8: Amendment. Subsection (b) of Section 11.16.110 of the Ketchikan Municipal Code, entitled "Temporary miscellaneous water service—Schedule G," is hereby amended to read as follows:

“(b) Rate.

<u>Size of Tap</u>	<u>Charge per Month or Part Thereof</u>
¾ inch	\$104.13 <u>109.34</u>
1 inch	141.39 <u>148.46</u>
1¼ inch	235.37 <u>247.14</u>
1½ inch	377.89 <u>396.78</u>
2 inch	758.80 <u>796.74</u>
Over 2 inch	By special contract”

Section 9: Public Hearing. Pursuant to §8-1 of the City Charter, a public hearing on this ordinance will be held at 7 o'clock p.m. on _____, in the City Council Chambers, 334 Front Street, Ketchikan, Alaska.

Section 10: Effective Date. This ordinance shall become effective on April 1, 2021.

PASSED ON FIRST READING _____.

TRANSMITTAL MEMORANDUM

TO: The Honorable Mayor and City Council

FROM: Karl R. Amylon, General Manager

DATE: January 15, 2021

RE: **Request for Staff Report Regarding Utility Rate Increases in 2021 – Councilmember Flora**

At its meeting of December 17, 2020, the City Council adopted motions approving the 2021 General Government and Ketchikan Public Utilities Operating and Capital Budgets. The KPU Budget was structured on the basis of a 1.5% increase in electric rates effective June 1, 2021 and a 5.0% increase in water rates effective April 1, 2021. Ordinances enacting the rate increases will be submitted to the City Council for consideration at its meeting of February 4, 2021.

At the City Council meeting of January 7, 2021, Councilmember Flora requested staff prepare an informational report that may aid the City Council in its deliberations of the proposed rate increases (see Exhibit A). Detailed below are staff's responses to the questions posed by Councilmember Flora. When ten-year time intervals are discussed, the years 2010 through 2019 were selected to correspond to audited financial statements.

Requested Information:

- 1) Ten-year history of the following:
 - a) Electric
 - b) Water (commercial rates on seafood processors and the resulting consumption changes included)*
 - c) Wastewater

Response: Detailed on the following page is a ten-year history of adjustments to electric, water and wastewater rates.

Schedule of Utility Rate Increases
2010 - 2019

Year	Electric	Water		Wastewater
		Residential, Business & Industrial	Seafood Processors	
2010	-	15.0%	-	-
2011	-	15.0%	-	5.0%
2012	-	-	-	5.0%
2013	-	5.0%	17.0%	10.0%
2014	-	8.0%	8.0%	4.0%
2015	-	4.0%	8.0%	8.0%
2016	5.0%	8.0%	8.0%	8.0%
2017	-	-	35.0%	-
2018	5.0%	5.5%	35.0%	6.0%
2019	-	5.5%	35.0%	6.0%

*See Exhibit B for seafood processor water consumption data.

Requested Information:

d) Property Tax

Response: Detailed below is a ten-year history of adjustments to the millage rate and the property tax revenues derived.

Schedule of Millage Rate and Property Tax Revenues*
2010 - 2019

Year	Millage Rate	Property Tax Revenue \$
2010	6.1	4,213,538
2011	6.2	4,275,002
2012	6.2	4,283,452
2013	6.7	4,944,084
2014	6.7	5,399,898
2015	6.7	5,416,097
2016	6.7	5,563,373
2017	6.7	5,584,768
2018	6.6	5,622,812
2019	6.6	5,691,073

*See Exhibit C for inflation analysis of millage rates and property tax revenues derived.

Requested Information:

- e) Telecom
 - i. Internet
 - ii. Landline
 - iii. Television
 - iv. Cell Phone

Response: Detailed below is a ten-year history of adjustments to KPU landline, basic Internet and television charges. Ketchikan Public Utilities does not offer cell service.

	2010	2011	2012	2013	Year 2014	2015	2016	2017	2018	2019
Telephone Per Month	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$
Residential*	15.45	15.45	15.45	15.45	15.45	16.45	16.45	16.45	16.45	16.45
Business	17.95	17.95	17.95	17.95	17.95	18.95	18.95	18.95	18.95	18.95

*Includes POTS line with basic calling feature package.

Definitive	64.50	66.35	66.35	66.35	66.35	73.81	73.81	73.81	73.81	73.81
Broadcast Surcharge**	-	-	-	-	-	-	6.99	7.78	14.52	16.27

* Excludes the division's Flex TV product, which was introduced in 2015, due to the myriad of options and rates.

**The broadcast surcharge was implemented in 2016 for all TV packages and is tied to actual cost increases in Retransmission Consent Agreements.

The rates in the tables above do not include federal, state or local surcharges. Rates are not adjusted for residential bundling discounts or flex business bundling discounts. For competitive reasons, the tables do not include KPU's planned increases in internet speeds made possible via KPU's new subsea fiber cable.

Requested Information:

f) Sales Tax

Response: Detailed below is a ten-year history of adjustments to the sales tax rate and the revenues derived.

Schedule of Sales Tax Revenues
2010 - 2019

Year	Retail Sales Tax Rate	General Fund \$	Hospital Sales Tax Fund \$	Public Works Sales Tax Fund \$	Total Retail Sales Tax Revenues \$
2010	3.5%	2,633,647	2,633,647	3,950,470	3,950,470
2011	3.5%	2,847,192	2,847,192	4,270,789	4,270,789

Requested Information:

6) Capital needs for each division.

Response: Detailed in the tables that follow are the current and/or projected capital priorities for the KPU operating divisions and the General Government Wastewater Division

a) Wastewater

**Immediate Projects
(3 to 5 Years)**

Schoenbar Road Sewer Replacement	\$ 3,000,000
Force Main Rehabilitation/Replacement	6,000,000
Sewer Main Replacement (Top Priority: Corrugated Steel Tributary to Ketchikan Creek)	5,000,000
Pump Station & Treatment Plant Upgrades	<u>1,000,000</u>
Sub-Total	\$ 15,000,000

**Intermediate Projects
(5 to 15 Years)**

Wastewater Effluent Disinfection*	\$ 20,000,000
Sewer Main Replacement (Corrugated Steel and other defective pipe)	45,000,000
Pump Station Upgrades	<u>2,000,000</u>
Sub-Total	\$ 67,000,000

a) Wastewater Continued.

**Long Term Projects
(55 to 25+ Years)**

Addition of Secondary Treatment*	\$160,000,000
Sewer Main Replacement (Corrugated Steel and other defective pipe)	35,000,000
Pump Station Construction	<u>5,000,000</u>
Sub-Total	\$200,000,000

*These are costs should EPA issue more stringent effluent discharge limits via a future discharge permit. The EPA has been pursuing issuance of new permits in the Pacific region, and has assembled a permit writing team for Alaska permit holders. The timing of these upgrades is not certain. Completion of these projects will significantly increase operational expenses.

Note: The intermediate and long-term costs listed above may be rough approximations and are based on use of best engineering judgment without the benefit of design information.

b) Water

Estimated Capital Project Needs 2021-25

Project	Estimated Cost
Walter Filtration Avoidance (could also result in additional capital projects – see next line below)*	\$ 400,000
Third UV Unit, Additional Testing and Studies*	5,000,000
Water Filtration Plant (\$2.0 to \$3.0 million in additional operation costs per year)*	70,000,000
Schoenbar Raw Water Main (Charter School – Middle School)	4,000,000
Schoenbar Water Distribution Main Replacement (Charter School to Middle School)	3,500,000
Water Meters – Business and Commercial Customers	756,000
Federal Act – Risk and Resilience Assessment	150,000
SCADA PLC Controllers	860,000
Water Distribution Grid Improvements	150,000
Additional Projects (fire hydrant replacement, valve box pavement adjustments/replacement)	200,000
Water Service Upgrade Program	75,000
Backflow Prevention Program	15,000
Highlands Reservoir Property Acquisition	270,000
Second Avenue Utility Improvements	1,315,800
West Fairy Chasm Utility Improvements	565,600
Skyline Water Main Replacement	370,800
Denali Ave. Utility Improvements	527,000
Evergreen Ave. Utility Improvements	455,000
Utility Vehicle Replacements	249,500
UV Facility Back-up Battery Bank Replacement	50,000
Water Pump Station Electrical Upgrades	<u>600,000</u>
Sub-Total	\$89,509,700

*Dependent on outcome of KPU/ADEC negotiations for a Limited Alternative to Filtration.

c) Electric

Electric Division Projects Scheduled for 2021 Greater than \$150,000

Beaver Falls Project Relicensing	\$ 200,000
Bailey Unit No. 3 Rehabilitation	400,000
Bailey Unit No. 1 Rehabilitation	865,000
Beaver Falls Switch Gear Replacement	1,200,000
OSI SCADA Upgrade	400,000
Ketchikan International Airport and Pennock Island Upgrade	400,000
Bailey Mooring Dolphin Replacement	150,000
Warehouse Roof Repair and Replacement	<u>270,000</u>
Sub-Total	\$3,885,000

Electric Division Projects Scheduled for 2021 - 2025

Generator Rewind & Repair	\$ 1,350,000
Whitman Tailrace Modification	36,291
Ketchikan Lakes Underground	250,000
Ketchikan Tunnel Penstock Valves Replacement	300,000
Downtown Underground Upgrade	385,458
Silvis Substation Upgrade	125,000
AMI, Meters, Meter Replacement Parts	625,000
Transformer Purchase	475,000
Battery System & Chargers	264,500
Bailey Fuel Tank Painting	100,000
Operating Equipment	1,463,500
Vehicles & Moving Equipment	1,210,000
Bailey Exhaust Stack Re-Coating	250,000
Reimbursable Projects	550,000
34.5kV Breaker & Relay Spares	155,000
Bailey Generator Radiator Replacement	325,000
Beaver Falls Powerhouse Exterior	636,070
Bailey Generator No. 4 Wartsila PLC Upgrade	115,000
Vehicle Lift Replacement	80,000
Future Diesel Generator (\$2 MM/MW scale)	<u>20,000,000</u>
Sub-Total	\$28,695,819

d) Telecom

The KPU Telecommunications Division capital budget is largely driven by the division's continued need to invest in the fiber network to meet its performance obligations that the utility committed to in the Alaska Plan. The division's ability to continue to receive significant Universal Service Funding is tied to the performance obligations. The "Normal Growth" categories reflect this ongoing investment in the fiber network and associated electronics. The division will be concentrating efforts on the multi-dwelling unit locations in the next few years.

Additionally, the division has two out of the ordinary capital expenditures in the next few years:

- 1) The Taqua switch is end of life and needs to be replaced. This is shown in the Normal Growth and Repair category for CO Switching. This project is estimated at \$800,000.
- 2) The core network is manufacturer discontinued and the division will need to replace it over the next few years. The project is estimated at \$2.2 million for 2021 – 2025.

The division also expects growth in its DataCenter services and has budgeted \$810,000 over the next five years (2021 - 2025) for this project.

**2021 – 2025 Telecommunications Division
Capital Improvement Program Summary of
Critical Projects**

Project	Five-Year Projected Investment
Normal Growth and Repair – CO Switching	\$ 800,000
Core Network Upgrade	2,200,000
Server Environment	810,000
Multi-Dwelling Unit Project	<u>900,000</u>
Sub-Total	\$4,710,000

Requested Information:

- 7) Comparative Rates: How does Ketchikan compare to other communities in our region?
- a) Water Rates
 - b) Electric Rates
 - c) Wastewater Rates
 - d) Telecom Rates

Response: See Exhibits E, F and G.

* * * * *

Closing Observations:

The profit/loss statement for KPU shows that the utility has not broken even five out of the ten years for which audited financial statements are available. The Electric Division has operated in the red for seven of the ten years. The Water Division has operated in the red for all ten years. Telecom has been profitable for eight out of the ten years and has sustained the operations of the Electric and Water Divisions. This has hampered Telecom's ability to compete in the market place. This trend is not sustainable and the Electric and Water Divisions must become self-sufficient if KPU as a combined utility is to survive.

Exhibit C clearly indicates that the mill levy is not keeping pace with inflation. General Government has been able to make up the difference by taking advantage of the growth in sales taxes generated by the increase in cruise ship tourism. Depending on the pace that Ward Cove develops its retail and tour operations, the City is likely to see the loss of some percentage of its traditional sales tax revenues, which potentially could result in higher reliance on the mill levy to fund General Government operations. This does not account for lost sales tax revenues should the COVID-19 pandemic prolong the recovery of cruise in southeast Alaska.

Request for Staff Report Regarding utility rate increases in 2021

Mark Flora

Ketchikan City Council

The City Council, with some dissent, passed the 2021 budgets with proposed rate increases of 1.5% for electric rates and 5% for water rates. KPU budget update number three illustrates how these rate increases will affect Ketchikan residents. Water rates would rise \$2.90 per month, or \$34.80 per year. Electric rates, while variable, would rise \$3.20 per month for 2000 kwh of electric usage, or \$38.40 per year. The combined increase would be approximately \$73.20 annually.

Per the City Manager these rates may become effective April 1, 2021. The City Council will need to deliberate the ordinances at the first meeting in February. Even though the budget passed with the proposed rate increases, they will not become effective without an affirmative vote of the Council. In order for the Council to make the best possible decision for the community I request four hands to direct staff to compile an informational report that may aid us in our deliberations. This information will also allow the community to view our historic rate increases, bonded debt, staffing concerns and capital needs. Having this information presented in a consolidated fashion will allow us to consider multiple factors without having to sort through years of budgets and memoranda.

Below is an outline for Council consideration. While some items are not directly related to these two rate increases, I think it would be beneficial for the community to have a broad overview of this topic. As always, Council input for items I have not considered will be needed so that we may have the best information to work from.

Draft Report:

- 1) Ten-year history of rates for the following:
 - a. Electric
 - b. Water Commercial rates on seafood processors and the resulting consumption changes included)
 - c. Wastewater
 - d. Property tax
 - e. Telecom
 - i. Internet
 - ii. Landline
 - iii. Television
 - iv. Cell Phone
 - f. Sales Tax
- 2) Profit/loss per division: Last ten years.

- 3) Inflation rate: Last ten years.
- 4) Staff:
 - a. Eligible/pending retirements – For each utility division
 - b. Staffing levels – desired versus actual – for each utility division
 - c. Apprentices employed – each utility division
- 5) Bonded debt for each utility division
- 6) Capital needs for each division.
 - a. Wastewater – For example, Mr. Hilson told me in 2018 we had approximately 26 miles of sewer line that needs to be replaced at a cost of \$600 per foot. This is an expense of \$82,368,000.
 - i. Other
 - b. Water –
 - i. Potential filtration
 - ii. Water lines due for replacement
 - iii. Other
 - c. Electric –
 - i. Generators
 - ii. Utility Poles
 - iii. Other
 - d. Telecom
 - i. Infrastructure needs as identified by the department
- 7) Comparative rates: how does Ketchikan compare to other communities in our region?
 - a. Water rates
 - b. Electric rates
 - c. Wastewater rates
 - d. Telecom rates

I am aware that wastewater is not a function of KPU, but I always thought it should be on the utility side of our budget and I think it is relevant for this overview.

I have also attached an Excel spreadsheet showing the budget reductions from our 2020 to our 2021 budgets. Combined budget reductions of 15.57% were achieved reducing year over year combined budgets by \$30,786,882. Further, this was accomplished without job losses, although we did agree to leave ten vacated positions empty.

I believe this report will provide the community with a summary of our present utility condition, both financial and structural. It will also help in understanding our present and future staffing needs. Additionally, it will also give the Council a more detailed basis on which to consider these rate changes, and allow for alternative suggestions in lieu of the proposed changes, that do not sacrifice the utilities financial viability or ability to provide reliable services.

Appropriations GG	2020	2021	Difference	% Change	
General Fund	\$28,813,233.00	\$27,457,278.00	-\$1,355,955.00	-4.71%

2020	53,905,000	54,210,000	32,870,000	1,481,000	60,700,000	0	8,645,000
2020 Totals	108,115,000		34,351,000		69,345,000		
Per Processor							

January through December 2020 **211,811,000** 18.6 % of Ketchikan's total 2020 water consumption (1,140,772,287 gallons)
Total Processor Usage, Gallons

Trident has moved much of their Silver Lining operation to their Stedman Street Plant. Silver Lining's (North 6") was isolated April 20th & their (South 4") on April 25, 2012. Note that a 6-inch meter at Trident's new Stedman Freezer Plant was installed in 2013.

Alaska General's 6-inch meter had failed earlier. The guts were replaced and a new in-line strainer panel installed on 5 Mar. 13.

*** July 1, 2015 Trident permanently shut off the 6-inch service out in the street and has connected their inside plumbing from that service to their 8-inch service

* Coronavirus has entire processor plant security fenced off and crew locked inside. Unable to put new read-head and node on 6-inch meter. At end of this season in late September, will be able to get in and read the total consumption. Probably only 20-million gallons or less. Last meter reading in April was 160730; reading in October at end of season is 169148 so only 8,418,000 gallons consumed

CITY CLERK'S FILE – None**CITY ATTORNEY'S FILE** - None**FUTURE AGENDA ITEMS**

Councilmember Flora said the ordinances for the utility rate increases that was passed in the budget cycle will be on the agenda for Council consideration on regular meeting of February 4, 2021. He indicated we hear a lot of comments from the public that the rates go up every year. He referenced his laid on the table regarding a request for a report to coalesce on historic rates increases, an overview of the state of our infrastructure and what needs to be done to keep the lights on, water running and the wastewater going in the right direction in order for Council to make the right decision. He said he is looking for four hands to give direction to staff. He knows no one likes to see rate increases, but this report might help in the decision making process or an alternative conclusion be brought forth.

Manager Amylon said if Council direction is given we can do that, but if the intent is to justify the rate increases he felt this information already existed. He said he had documents he can share tonight, and explained the Electric and Water Divisions are consistently operating in the red, noting SEAPA is going to raise their rates. He indicated if we don't raise rates we will continue to operate in the red per the last two transmittal reports giving the Council a ten-year perspective of the profit and loss of each of these utilities. He indicated under normal circumstances he would not have concerns putting this together, but with staff changes and shortages, COVID-19 and trying to put a plan together for the resumption of cruise will put a strain on staff.

Councilmember Flora withdrew his request.

Councilmember Bradberry agreed with Councilmember Flora to have this information available to the Council and the public without the overview on the infrastructure. She felt rate increases are a big decision right now, and we need to have all the information.

Mayor Sivertsen said this information was provided to us in the budget transmittals shows rates, taxes and the reality is we are a service oriented entity and everything around us is going up. He said the City is all about providing services and with these three utilities we have been providing these services at a loss. He said since he has been on the Council this conversation comes up every year.

Councilmember Kiffer agreed with the points made by Mayor Sivertsen, and we have gotten into trouble with these utilities because generations of Councils have continued to kick this can down the road and decided not raise rates. He said he agreed the rates need to be raised incrementally, and it would be nice to have all the information on the table when we talk about it. He felt there is a medium ground here to get some information here without completely taxing staff, and maybe Councilmember Flora could revise his request.

Councilmember Flora said no one will go through nine years of budgets, but the social media platform will be buzzing with all kinds of questions why the rates are going up. He said he would like the people we serve to understand our rationale. He stated he had no problem condensing this into something more manageable. He left it up to staff on what to include in this report.

Manager Amylon indicated staff would put the request together.
